

WIRE STRAINERS

Product Code: KLIPWIRE

Product Overview

Galvanised steel strainers for quickly taking up slack and maintaining tension in kiwifruit support wires.

Key Features

- Twist-on design with purpose handle
- Slack retained on loop of strainer
- One-piece galvanised steel construction
- Ideal for orchard support wires
- Two designs R-Tite and K-Tite depending on preference

Usage Instructions

- Twist strainer onto wire with handle until desired tension; clip loop in place.

Storage & Handling

- Store in dry area to avoid corrosion.
